Jurnal Nasional Teknik Elektro dan Teknologi Informasi (JNTETI) is a research-based open-access journal. Periodically, JNTETI is published quarterly in February, May, August, and November.

EDITORIAL FOREWORD

We are obliged that JNTETI Volume 11 Number 2, May 2022 edition, has been published amid the ongoing COVID-19 pandemic. We appreciate everyone who participated in the publishing process.

We would like to remind the readers that JNTETI has started to evolve into an international journal publication while maintaining its identity with a strong national focus. International readers and researchers are open to contributing to this journal. All articles will be translated into Indonesian and English and published on the JNTETI's website and in print so that Indonesians can continue to benefit from this journal.

Volume 11 Number 2 contains ten articles, including seven articles in information technology, two articles in the signal systems and electronics/telecommunications field, and an article in electrical power systems.

We also like to remind you that JNTETI welcomes manuscripts written in both Indonesian and English. The submitted works will be processed following our applicable procedures. There will be a manuscript translation process at the end of the publishing process, which will be continued with the manuscript publication.

We expect critics and suggestions for improvement.
