**JURNAL ILMU KEHUTANAN** is a biannual (March and September) journal published by the Faculty of Forestry, Universitas Gadjah Mada, Yogyakarta, Indonesia. The journal is intended as a medium for communicating research activities in various aspects of forestry and to motivate researchers to publish research articles, short communications, and reviews. Scientific papers published in the journal are the contribution from researchers and practitioners in the fields related to forestry and environment. The journal also receives proposals for special issue.
